Founder's Story

Working Together for a Common Goal

Josh & Jenna Zwagil are passionate about providing a true 'home' for their affiliates and have created MyDailyChoice, a powerful and rewarding House of Brands that delivers the best products and services in health and wellness, performance, weight management, beauty and cosmetics, travel, financial education, and more.

"We started as affiliates looking for a home to plant our flag. We couldn't find what we were looking for so we built it."

-Josh & Jenna Zwagil

FOUNDED BY AFFILIATES, *For Affiliates.*

Humble Beginnings

In 2014, MyDailyChoice began its journey with humble beginnings to help people break down barriers and create change in their life. Each year, MDC experienced organic growth through hard-work and dedication to the field.

In 2017, MDC concluded the year at \$10M in sales which would lead to a journey of unprecedented growth. In 2018, MDC grew to \$100M+ and then \$170M in 2019. This record-breaking growth led to expansion into Europe, Asia, Latin America, and other markets worldwide.

MDC continues to grow into new markets and expand product lines and services that benefit customers and affiliates across the globe.

HEMPWORX

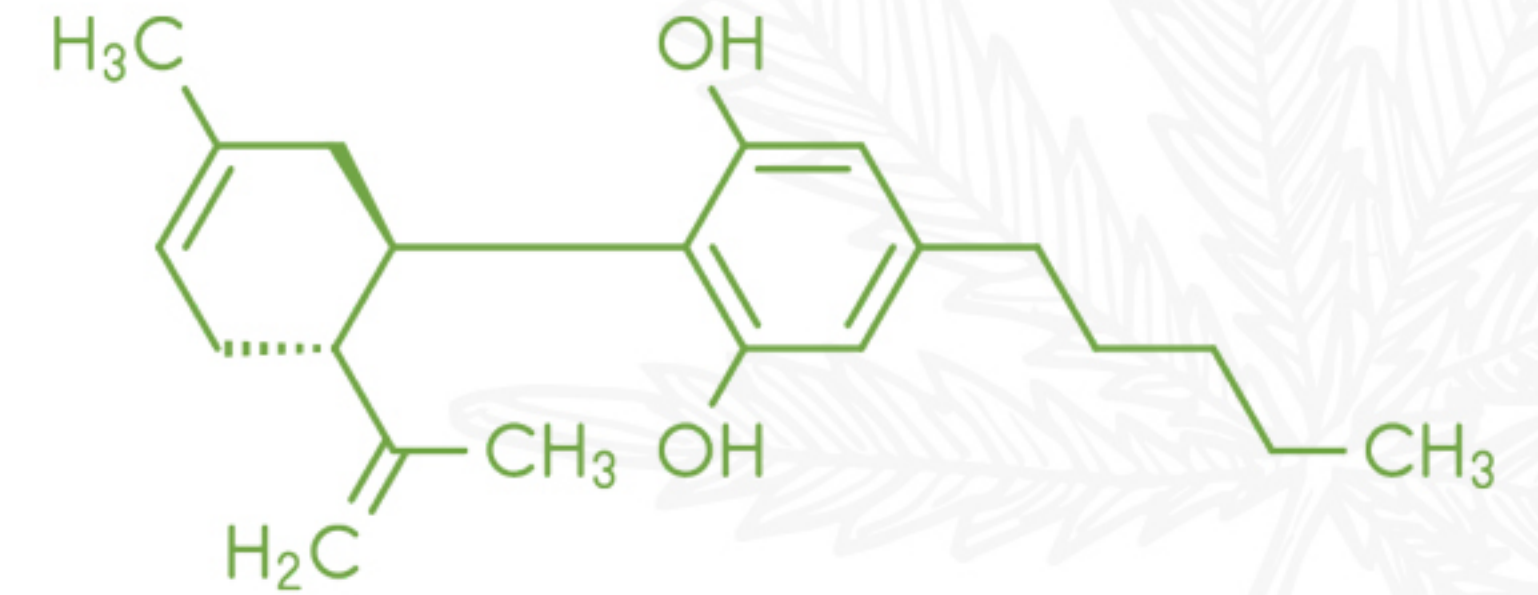

MARIJUANA VS HEMP

Cannabis is a family of plant with two primary classifications - Indica and Sativa. While marijuana can be considered a member of either the Indica or Sativa families, Hemp is a member of the Cannabis Sativa family.

Because Hemp and Marijuana both derive from the Cannabis Sativa family, they do share certain similarities. However, due to each plant's biological structure, they have several very distinct and crucial differences.

CBD

Cannabis contains a variety of different compounds called Cannabinoids. Two of the most dominant are Tetrahydrocannabinol (THC) and Cannabidiol (CBD).

Both Cannabinoids have shown to provide profound benefits to the human body. While THC induces psychoactive effects (gets the user "high"), CBD does not contain any psychoactive properties.

THE ENDOCANNABINOID SYSTEM

“The significance of CBD wasn’t fully realized until a new system of the body called the Endocannabinoid System (ECS) was discovered in 1988.”

“The cell’s surface is covered with receptors. These are receptors for CBD. CBD binds to those receptors and send messages to the cell’s nucleus, where the intelligence of our entire physiology is contained within our chromosomes.”

“Endocannabinoid receptors are located in both the central nervous system, combined with the brain’s nerve cells [to] help regulate the body’s biochemistry. CB2 receptors in the peripheral nervous system are largely found in white blood cells in the tonsils and the spleen. We have these receptors because our bodies are constantly making its own cannabinoids. Cannabinoids that bind these sites help modulate the immune system response to disease and injury.”

“Therefore, if these were cells in your pancreas, which make insulin, for example, that insulin-making phenomenon is happening in millions of pancreatic cells, all producing insulin to keep your blood sugar in proper balance.”

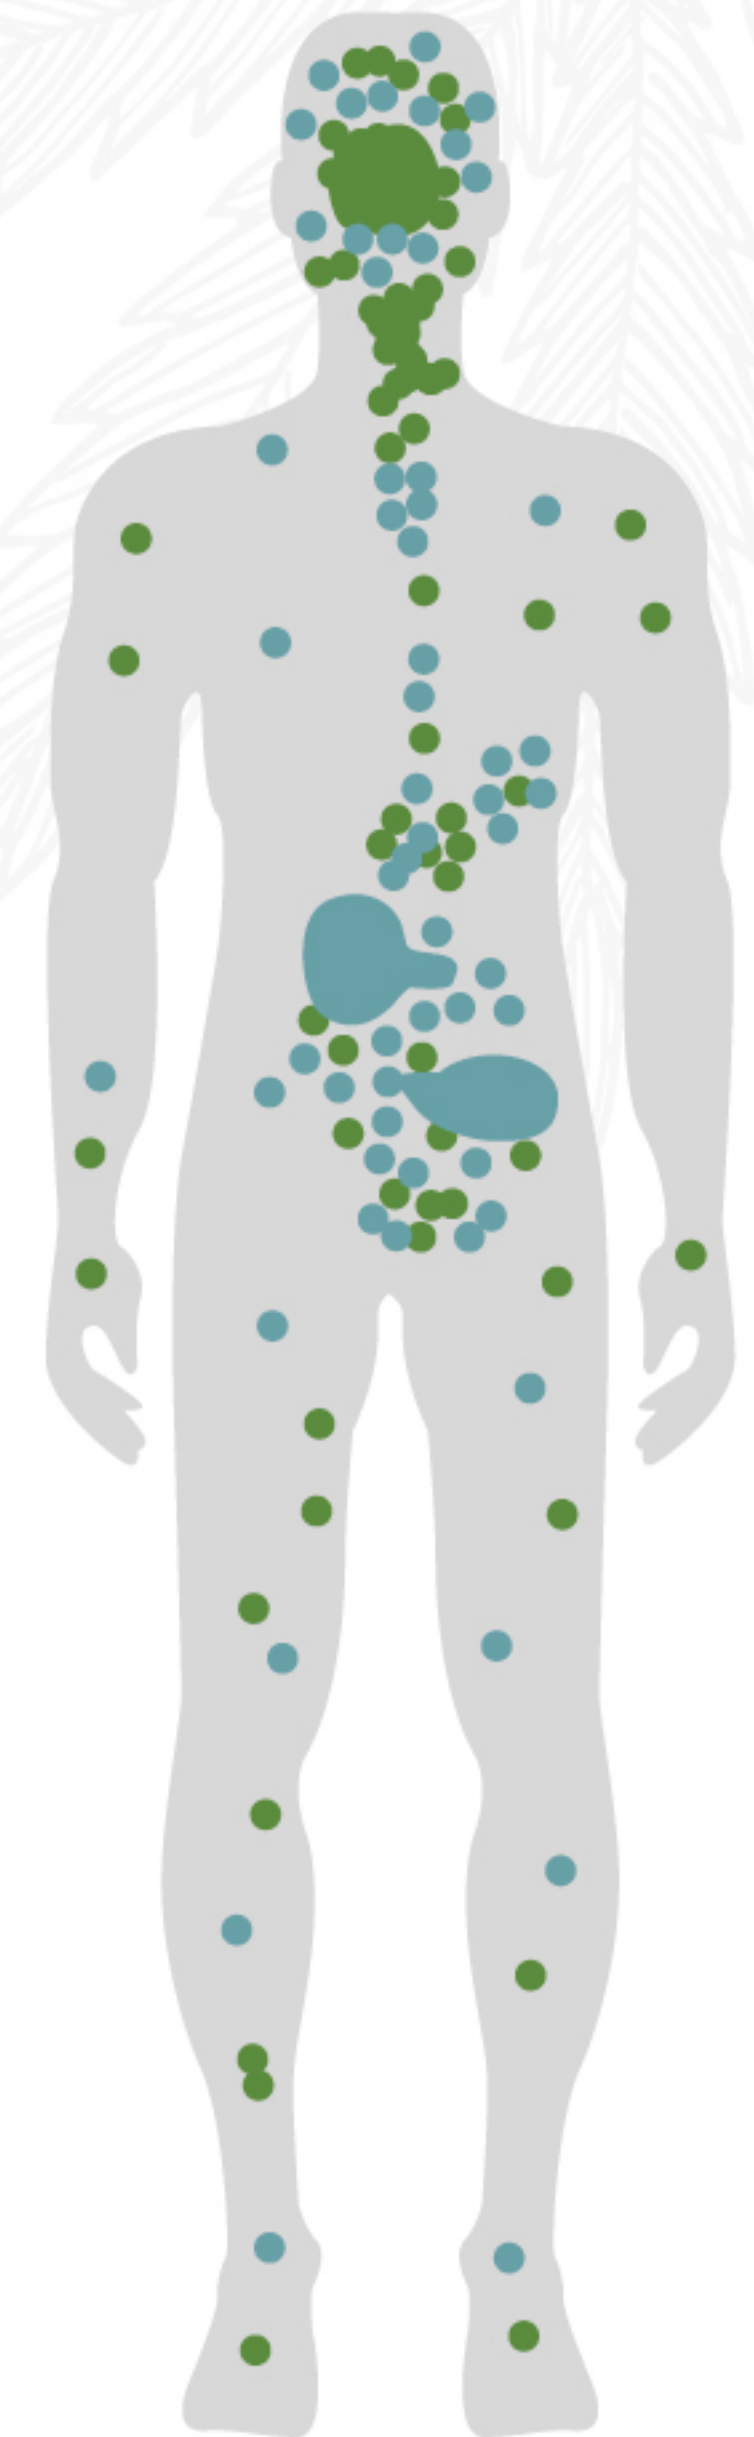

“That’s how it works using the mobile module. In the human body, your physiology interacts with CBD through the endocannabinoid System (ECS), the body’s largest, self-regulatory system. Our ECS is always in action, and if functioning properly, is a major factor in keeping us healthy.”

PROVEN PERFORMANCE, BEAUTIFUL RESULTS

"Who's looking for makeup that's actually GOOD for your skin? I know I was and to find one with a decent price tag! I'm a 40 year old mother who's trying not to age my skin any faster. Since using this incredible bundle I feel I look airbrushed and it doesn't even feel like I'm wearing makeup! It's so soft and light!"

- Tiffany Glaser

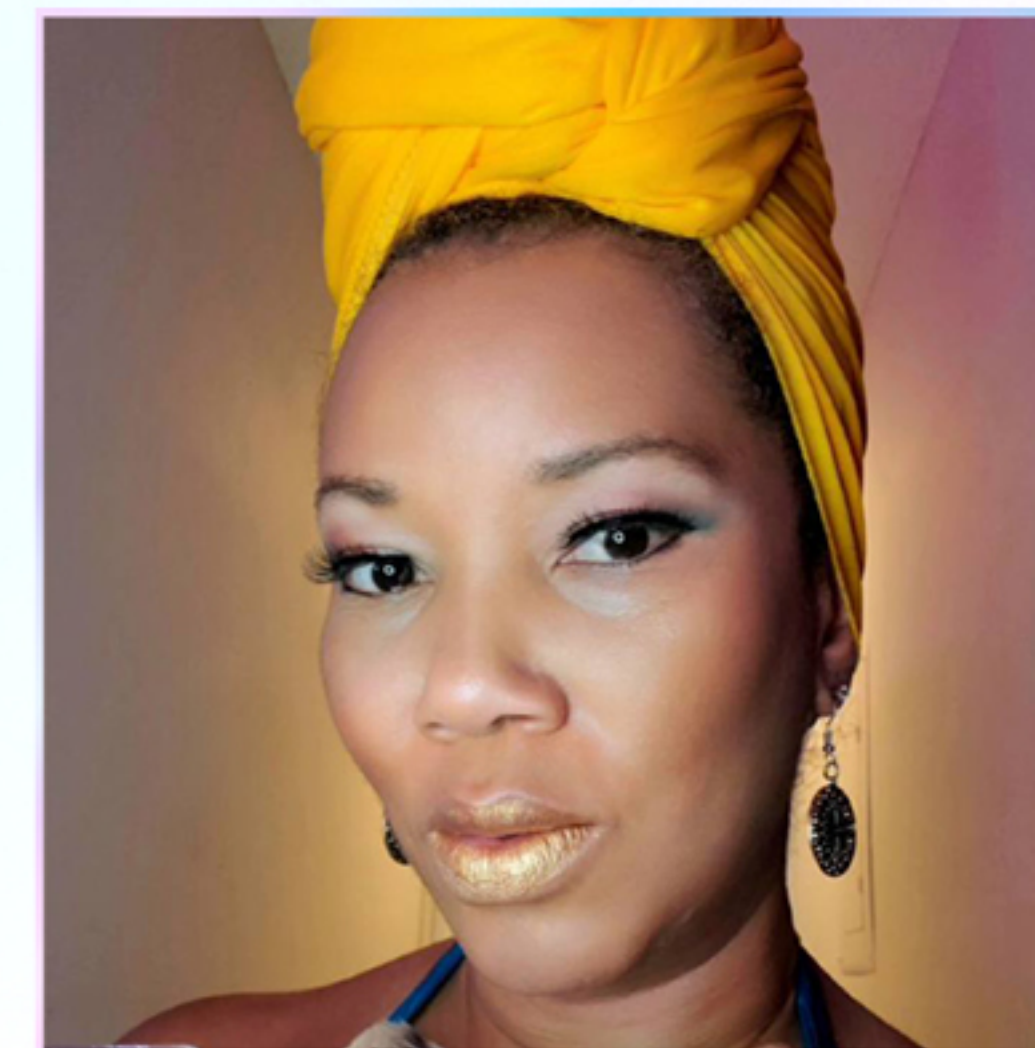

"Finally a quality makeup that doesn't wreak havoc on your face! As a woman with more mature skin, it was hard to find a makeup that didn't cake up or make my fine lines more noticeable. I've noticed that it's safe to wear daily and for long periods of time without having to worry about having breakouts from excessive use! I confidently threw away most of my top brand makeup when I started using Cosmikology"

- Candace Byrd Davis

"Since I started using Cosmikology my skin has been flawless! I haven't broken out, it's helped clear up some blemishes, and it goes on so smooth with a nice airbrush finish!"

- Jessica Haluschak

"My eyes have gotten so sensitive and so I am switching out all my cosmetics to chemical and toxic free, vegan shadows. I purchased Karma and OMG, they go on so smooth, stay in place and feel so good on my skin. The pigments are so vivid and easy to blend. I have been doing makeup for 30 years and THIS is superb!"

DOCUMENTATION

FFX is a comprehensive fuel treatment. Other products may have one or two of our components, but none have all of them. It would take many products mixed together to even come close to giving you the same benefits as using **FFX**.

- Used for 30+ years with commercial clients
- Over 2.5 billion miles tracked

Did You Know?

In 1973, Ernst Otto Fischer and Geoffrey Wilkinson won the Nobel Prize for pioneering the work of organometallic chemistry which is the same chemistry behind **Fuel Factor X**.

Check out the MDC website for more info on FFX and official documentation.

TESTIMONIALS

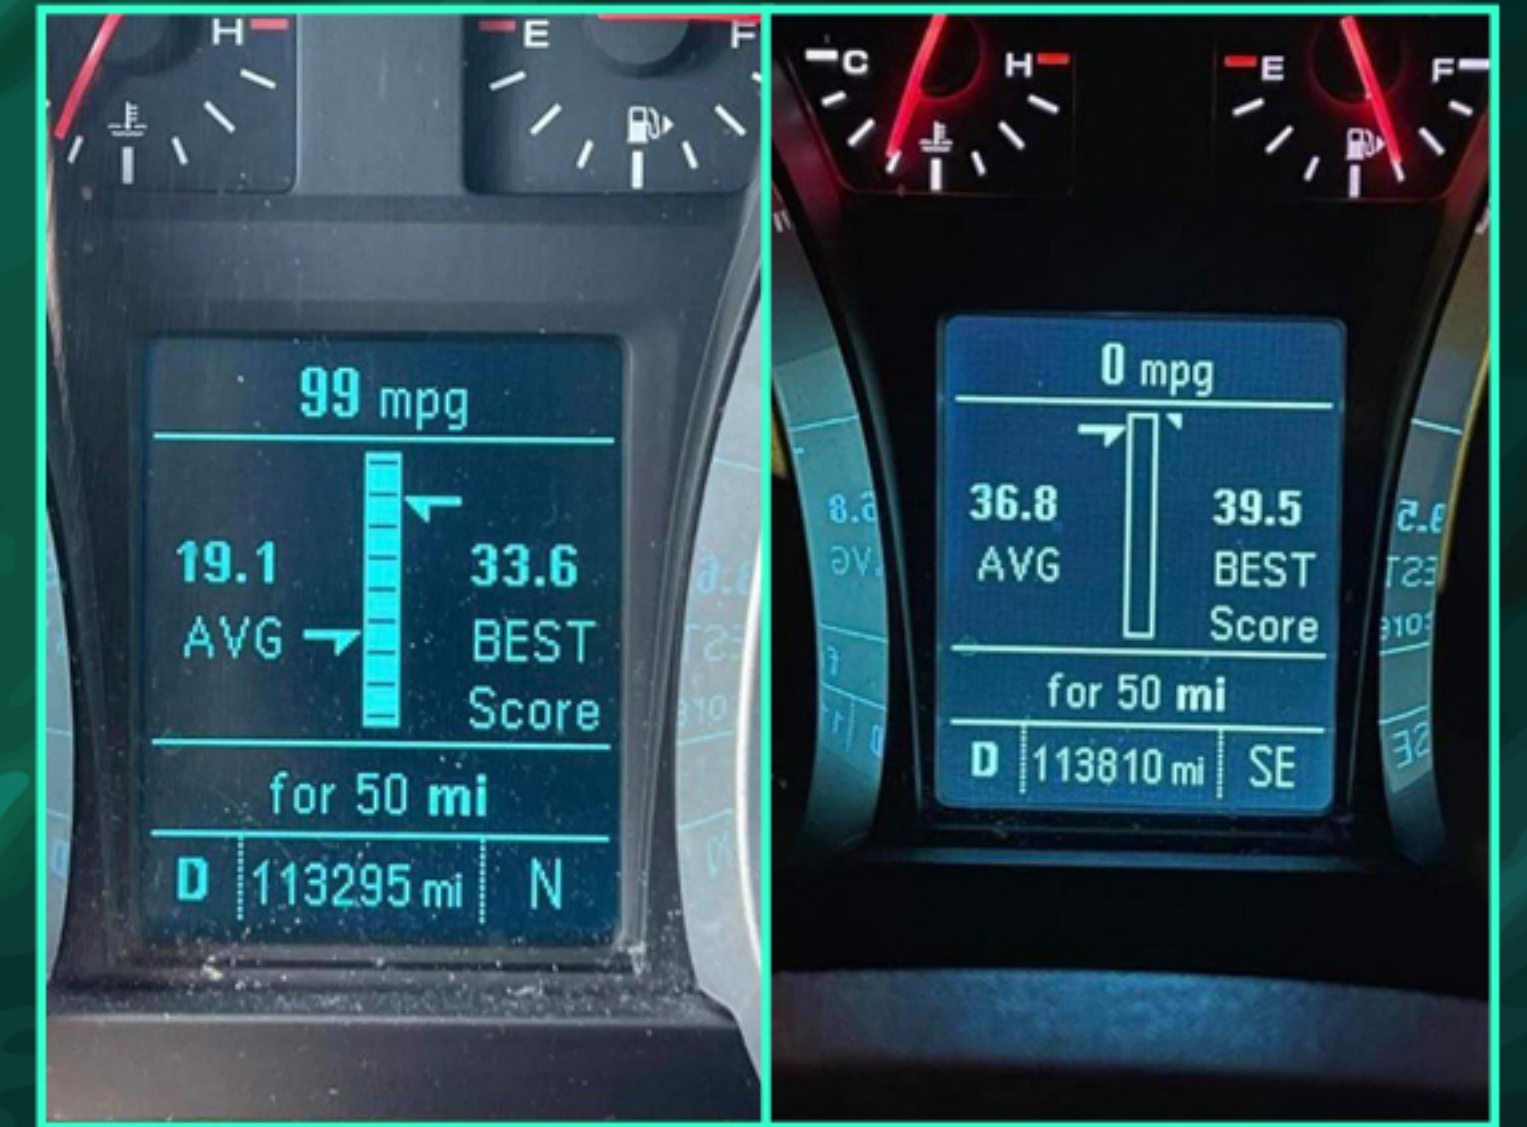

"Before using FFX, my 'miles until empty' would average around 380. With FFX, that went up to 415 miles, then the third time I tried FFX it increased to 454, and it just keeps getting better and better! I'm getting more miles per tank—which means I'm saving money in between fills!"

- JODY NAGEL

"After just a few double doses in our diesel truck, FFX is definitely working! We're gaining 3-7 mpg, even when pulling our 42-foot, fifth-wheel RV. My husband also said he felt like it was pulling smoother and having to work less. We'll continue to use FFX because of better results as time goes on."

- THE HICKS FAMILY

"After using FFX for the first time, my vehicle went from 19.1 to 33.8 miles per gallon! Can't wait to see how much more it goes up with the second treatment!"

We are sold!”
